

MY PACIFICA ACTIVITY BOOK

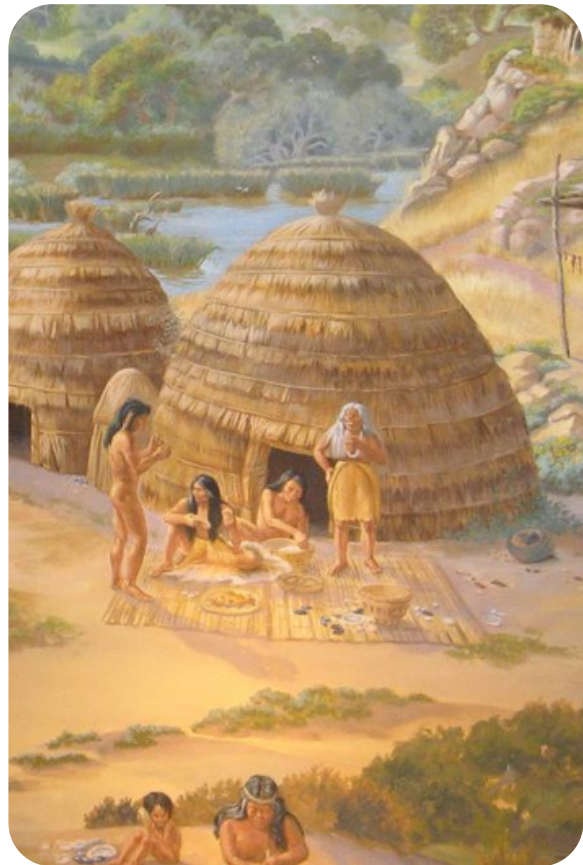

Pacifica's Story

Long, long ago, people called the Ohlone lived here. They loved the land and the sea. Today, we visit to see its beauty!

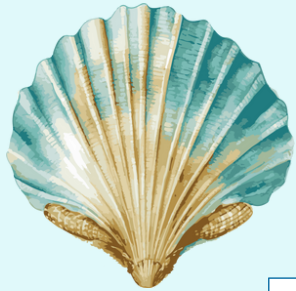

The Ohlone loved nature and respected every bit of it. They fished in the sparkling waters, using long nets made from plants. They picked juicy berries from bushes, and at night, they would gather around a big, warm fire, cooking fish and telling stories under the starry sky.

Their homes were special too. Using tall grass and strong sticks, they built round houses called 'tule huts'. These huts kept them warm in winter and cool in summer.

The Ohlone tribe knew the importance of love and community. They believed that every tree, animal, and wave in Pacifica had a spirit. They sang songs to thank these spirits, danced in their honor, and promised to always take care of the land.
